

NETVIO

SIMPLIFYING COMPLEXITY

IP-RK-10 JP4 Series Rack Mount

Netvio's rack mount is an essential accessory for all JP4 series AV over IP systems.

THE PERFECT FIT

The IP-RK-10 6U 10-device rack unit is the optimal solution for your JP4 AVoIP devices, offering efficient and effortless rack design without any extra adaptors or plates required. Rack design has that much easier.

EVERYONE STAY COOL

The IP-RK-10 adds an aesthetic look to your rack, but it also provides a crucial function. Properly designed separation and airflow around JP4 components allows for maximum cooling efficiency – giving you the confidence of reliable performance over time.
